

2027 Conference Deadlines (Before June) — BTP

Target Venues

Research date: 2026-08-15. Scope: conferences taking place **January–May 2027**, relevant to the two candidate BTP topics — (1) AMC / wireless / self-supervised domain adaptation, and (2) audio codec / FPGA / VLSI. Deadlines are the paper **submission (CFP) deadlines**, not the conference dates themselves.

Read the confidence column before planning around any date. Many 2027 CFPs are already published; some aren't yet, and are marked as estimates only — do not treat an estimate as a real deadline.

Area 1 — Wireless / RF / ML (AMC — Sim-to-Real Domain Adaptation)

Conference	Dates	Location	Submission Deadline	Confidence
IEEE ICASSP 2027 (also relevant to Area 2)	16–21 May 2027	Toronto, Canada	16 Sept 2026 (paper); notification 13 Jan 2027; camera-ready 27 Jan 2027	✅ Confirmed — official CFP
IEEE WCNC 2027	5–8 Apr 2027	Panama City, Panama	15 Sept 2026	✅ Confirmed — official ComSoc page
IEEE INFOCOM 2027	24–27 May 2027	Honolulu, Hawaii, USA	Abstract 24 July 2026 ; full paper 31 July 2026	⚠️ Dates confirmed; deadline from a ComSoc social post, not independently re-verified on the official CFP page
ICLR 2027	26–28 Apr 2027 (workshops 28–30 Apr)	TBD — not yet announced	Abstract 18 Sept 2026 (AoE); paper 25 Sept 2026 (AoE)	✅ Confirmed — official site

Area 2 — Audio / FPGA / VLSI (Neural-Augmented Audio Codec)

Conference	Dates	Location	Submission Deadline	Confidence
ISSCC 2027	14–18 Feb 2027	San Francisco, CA, USA	9 Sept 2026 , 3:00 PM ET	✅ Confirmed — official CFP PDF
DATE 2027	22–24 Mar 2027	Dresden, Germany	Abstract 13 Sept 2026 (AoE); final paper 20 Sept 2026 (AoE, firm)	✅ Confirmed — official site

Conference	Dates	Location	Submission Deadline	Confidence
ASP-DAC 2027	25–28 Jan 2027	Tokyo, Japan	Abstract 11 July 2026 ; PDF upload 18 July 2026 (5pm AoE)	✅ Confirmed — official site/CFP PDF
IEEE VLSID 2027	2–6 Jan 2027	Bengaluru, India	7 Aug 2026 , 11:59 PM PST	✅ Confirmed — official site
IEEE CICC 2027	18–21 Apr 2027 (workshops 21–22 Apr)	San Diego, CA, USA	Not published yet	⚠️ Dates confirmed; deadline estimated only (~Nov 2026, based on historical ~5-month lead)
IEEE FCCM 2027	9–12 May 2027 (<i>tentative</i>)	Provo, UT, USA (<i>tentative</i>)	Not published — official fccm.org still shows 2026 as current	❌ Dates from third-party aggregators only, not the official site. If ~4-month historical lead holds, deadline would land ~Jan 2027 — unconfirmed

India-Based / Regional (bonus finds, both areas)

Conference	Dates	Location	Submission Deadline	Confidence
NCC 2027 (33rd National Conference on Communications)	17–20 Feb 2027	IISc Bengaluru (+ IIT Goa/Palakkad, IIIT-B)	Not published yet	⚠️ Dates confirmed, deadline not found
COMSNETS 2027	5–9 Jan 2027	Bengaluru, India	Reported as 31 Aug 2026	⚠️ Dates confirmed; deadline not independently verified (official CFP page unreachable)

Excluded: SPCOM (IISc) — biennial, 2026 edition ran July 2026, no 2027 edition (next ~2028).

Borderline — Falls At or Just After the June Cutoff

Flagged rather than silently dropped, since two of these are flagship venues in these fields:

Conference	Dates	Why it's borderline
IEEE ICC 2027	30 May – 3 June 2027, Washington DC	Only 2 of 5 days fall before June 1 — mostly outside the window. Deadline ~2 Oct 2026 (aggregator-sourced, not independently verified).
IEEE VTC2027-Spring	20–23 June 2027, Hamburg, Germany	Despite the "Spring" name, entirely in June — outside the window. Deadline confirmed: 1 Sept 2026.
IEEE ISCAS 2027	6–9 June 2027, Bordeaux, France	Entirely in June — outside the window. Deadline not checked (out of scope).

Not Yet Announced — Do Not Rely On

Conference	Status
IEEE DySPAN 2027	No 2027 edition or CFP found at all. Historical pattern: annual, always in May (2026 edition was 11–14 May, Washington DC). Do not assume a 2027 edition will happen in this window until announced.
AES Europe 2027	Dates and location both TBC on the official site. Historical pattern: AES Europe 2026 ran 28–30 May (Copenhagen) — right at the boundary even in a normal year.

How to Use This

1. **Plan around the  confirmed rows first** — these are sourced from official CFPs and safe to build a timeline against.
2. **Double-check  rows directly on the conference site** before treating the deadline as final — dates were confirmed but the deadline itself came from a secondary source.
3. **Do not plan around  rows** — treat them as "watch this space," not real deadlines.
4. Given both BTP candidates are still uncommitted (see `literature_verification.md` for the AMC plan and `fpga_neural_codec_research.md` for the FPGA codec plan), the earliest hard deadlines to be aware of either way are **ASP-DAC 2027 (11 July 2026)** and **VLSID 2027 (7 Aug 2026)** for the FPGA/audio track, and **INFOCOM 2027 (24 July 2026)** for the wireless/AMC track — all of which may already be tight or passed by the time this is read, given how early their deadlines fall relative to a typical BTP timeline.
